Analytical Questions And Answers:

Advances in Open Domain Question Answering Tomek Strzalkowski, Sanda Harabagiu, 2006-10-07 Automated question answering the ability of a machine to answer questions simple or complex posed in ordinary human language is one of today's most exciting technological developments. It has all the markings of a disruptive technology: one that is poised to displace the existing search methods and establish new standards for user-centered access to information. This book gives a comprehensive and detailed look at the current approaches to automated question answering. The level of presentation is suitable for newcomers to the field as well as for professionals wishing to study this area and/or to build practical QA systems. The book can serve as a how-to handbook for IT practitioners and system developers. It can also be used to teach advanced graduate courses in Computer Science, Information Science, and related disciplines. The readers will acquire in depth practical knowledge of this critical new technology.

Analytical Templates of the Bavli Jacob Neusner, 2006-03-01 In the Mishnah ca 200 C E, the Tosefta ca 300 C E, and the commentaries that joined them, the Yerushalmi, the Talmud of the Land of Israel ca 400, and the Bavli and the Talmud of Babylonia ca 600, the law of Judaism is outlined topic by topic. The exposition of these topics, however, is shaped in part by a generic analytical program. The hermeneutics of the Halakhah of the formative canon guides the Rabbinic sages to say the same thing about many things. Specifically, issues of a patterned analytical character guide the presentation so that most topics, in some measure, and some topics, in paramount measure, serve to illustrate ubiquitous generic problems of thought or intellectual templates. Two generative problems found in four intellectual templates predominate: 1. intentionality and concomitantly 2. teleology, 3. resolution of doubts and concomitantly 4. the classification of mixtures. The second and fourth templates form subsets of the first and the third. In this project, author Jacob Neusner identifies the occurrences of the four intellectual templates and shows in complete detail where and how the same problems recur, time and again.
