Raymond Drake,2021-10-12 From prehistory flying saucers have been seen in our skies Where have they come from Why are they here As mankind sends probes beyond the fringes of our galaxy we must ask ourselves Has all this happened before Could extraterrestrials have landed on Earth centuries ago Our ancestors believed they were inspired by the gods all powerful visitors from the stars How much influence did these space gods have on man s evolution Can we hope for some guidance during our current troubled times In this deluxe edition reprint W Raymond Drake one of the developers of the Ancient Astronaut theory examines the role of extraterrestrials in mankind s development and assures us that in times to come we will again be visited by gods and spacemen from other worlds Drake spent many years digging through huge archives of material looking for supposed anomalies that could support his scenarios of space aliens impacting human history Chapters include Spacemen The Golden Age Sons of the Gods Lemuria Atlantis Ancient America Aztecs and Incas India Tibet China Japan Egypt The Great Pyramid Babylon Israel Greece Italy Ancient Rome Scandinavia Britain Saxon Times Norman Times The Middle Ages The Age of Reason Today Tomorrow more As Drake himself said I aspired to collect as many facts as possible from ancient literature to chronicle for the past what Charles Fort has so brilliantly done for the present century Includes a 16 page photo section First published in 1975 [Ancient Alien Ancestors](#) Will Hart,2017-07-18 Explores evidence for the theory of directed panspermia that life on Earth and the landscape of Earth itself was engineered by extraterrestrials Details how the Earth was terraformed through a sophisticated geo engineering program providing clear examples such as the precise mathematical longitude configurations of the Great Pyramid of Giza with the major rivers on Earth Shows how our spectrum of blood types supports the theory of panspermia while directly contradicting the conventional out of Africa theory of evolution Examines the strongest modern UFO accounts including the Russian Roswell case as well as the suppressed UFO sightings of NASA astronauts In the early 1970s Nobel Prize winning DNA co discoverer Sir Francis Crick and his colleague Leslie Orgel proposed that in the distant past an extraterrestrial race sent a spacecraft loaded with microorganisms to seed the Earth with life Now more than 40 years later the fields of space research and biotechnology have advanced to the point where they can back up Crick and Orgel s claims about our ancient alien ancestors Sharing scientific evidence of alien involvement with life on our planet and with the very landscape of Earth itself Will Hart refines the theory of directed panspermia that life was intentionally seeded on Earth by extraterrestrials to reveal that the same ET agency also created humans and generated civilization He shows how the Earth was terraformed through an engineering program so sophisticated and vast that it has escaped our attention so far for example the major rivers on Earth are precisely aligned

through geo engineering with the Great Pyramid of Giza Revealing the Great Pyramid as an alien message in stone the author explains how the Giza pyramids could not have been built by the ancient Egyptians and examines the extraterrestrial energy technologies used to move the pyramids massive stone blocks methods later rediscovered by Nikola Tesla and the builder of Coral Castle Edward Leeds Kalnin He details how an advanced race implanted the basic genome on Earth as well as genetically engineered the human race and shows how our spectrum of blood types supports the theory of panspermia while directly contradicting the conventional out of Africa theory of evolution Investigating how the extraterrestrial agency behind the origin of civilization is still working behind the scenes today the author examines the strongest modern UFO accounts including the Russian Roswell case and the suppressed UFO sightings of NASA astronauts He shows that this advanced ET civilization is not an alien race in the way we normally think of aliens they are our ancestors and as human as we are

Hidden History Jim Willis, 2020-05-01 Investigates and questions the scientific consensus on the origins of civilization Do we the human species really know who we are or where we came from or how we originated or our place in the cosmos Or is much of what we have been taught wrong or misguided or possibly even blatant lies intended to keep people in power and everyone else in line Exploring alternative theories on the establishment of society and civilization Hidden History Ancient Aliens and the Suppressed Origins of Civilization looks at a variety of dissenting suppressed and forbidden accounts of history and the origins of humanity It takes a broad and inclusive survey of historical documents various theories and a wide array of perspectives to explore what conventional wisdom might have gotten right and wrong The book serves as a useful introduction into the suppressed accounts of the origins of modern civilization It combines cutting edge science with metaphysical spiritual and even paranormal views daring to ask whether there might be a better explanation for humanity's existence and the origins of civilization than the current scientific consensus Hidden History looks at the multiverse and parallel dimensions the ancient alien theory metaphysics and hypotheses beyond physical perception the eleven dimensions of string theory radio telescopes that penetrate to the event horizon of our universe mathematical equations that take us where no one has gone before and the world wide sharing of experiences old and new that speak of long forgotten ancient mythologies that reveal historical truths With more than 120 photos and graphics this tome is richly illustrated Its helpful bibliography provides sources for further exploration and an extensive index adds to its usefulness This fascinating book is a thorough investigation and examination of the mysteries surrounding early civilizations their myths legends histories monuments and lasting legacies
