Mathematical Competitions and Olympiads* Pouya Ghofrani, 2012-02 The book *New Problems and Solutions for International
Mathematical Competitions and Olympiads* provides good experiences for those students who are enthusiastic in thinking
and fighting with problems that are famous in the global fields The problems of the book have been designed ingeniously and
selected carefully from thousands of potent problems and notes from many years ago up to now as to make a basis of
important key problems which contains multiple ideas in Number s Theory Combinatorics Geometry Mathematics Analysis
Complex Numbers Geometry and etc I have tried to solve them in a clear way such that nearly all the steps have been
explained The problems may first be appeared as related to an obvious class whereas in the solution lots of joint ideas are
essential to solve The feature which makes this book different from similar books is the fact that I have established a firm
structure here which includes almost all dimensions necessary for both university and high school students to direct their
acquired ideas and in the terms of mathematics to make a complete graph of them **Mathematical Olympiads
