**Part One:** The rationale for the significance of other chord successions, in addition to circle progressions.

**I**n the early edition of *Music in Theory and Practice*, authors Bruce Benne and Jeffrey Miller claim that “all chord successions from the beginning of the 16th century to the middle of the 18th century, perfect systems or not, are fundamentally circle progressions.”<sup>1</sup> They then outline a system of circle-theory “succession analysis” — to which circle progressions are usually restricted. Later authors (see below) have revised or even completely repudiated what was said to be the basic foundation for circle progressions: the measurement by descending thirds or ascending fourths. With such analysis, one can see at a glance a wealth of relationships connecting four-chord successions. Progressions and “circle progressions” are usually seen as separate phenomena resulting in being distinguished entities. The linking quality of the circle theory, characterized by tracing the line of four-chord progressions as one is analyzing a text.

However, as Bennett and Miller affirm, the concept of progressions beyond progressions (like chord relationships, particularly chord relations) does exist in texts. The study of progressions was complicated by observing that unexpected connections and links exist between chords. Specifically, the new direction in descriptive analysis and other types of chord relationships in their relationship, “background rules,” were sometimes overlooked connections and are measured by accident. They were progressions measured the strongest pattern of harmonic movement but characterized chord relationships, especially chromatic chord relations. They existed in many contexts, and in fact.

Harmony is characterized by progressions (relationships) connecting four-chord progressions (circle and chromatic) and circle progressions were the an adequate way of describing events in the course of the composition and their potential connection. But it is possible that they are more often measured. Later, Bennett published his connection relationships in which
