Structuralism And Poststructuralism For Beginners:

Structuralism and Poststructuralism For Beginners Donald D. Palmer, 2007-08-21 What is Structuralism How is it possible And once the structures of Structuralism have been discovered how is Poststructuralism possible Thus begins Don Palmer's *Structuralism and Poststructuralism For Beginners* If Nobel or Pulitzer ever made a prize for making the most difficult philosophers and ideas accessible to the greatest number of people one of the leading candidates would certainly be Professor Don Palmer From his *Sartre For Beginners* and *Kierkegaard For Beginners* to his *Looking at Philosophy* author/illustrator Don Palmer has the magic touch when it comes to translating the most brutally difficult ideas into language and images that non-specialists can understand In its less dramatic versions writes Palmer structuralism is just a method of studying language society and the works of artists and novelists But in its most exuberant form it is a philosophy an overall worldview that provides an account of reality and knowledge Poststructuralism is a loosely knit intellectual movement comprised mainly of ex-structuralists who either became dissatisfied with the theory or felt they could improve it *Structuralism and Poststructuralism For Beginners* is an illustrated tour through the mysterious landscape of Structuralism and Poststructuralism The book's starting point is the linguistic theory of Ferdinand de Saussure The book moves on to the anthropologist and literary critic Claude Lévi-Strauss the semiologist and literary critic Roland Barthes the Marxist philosopher Louis Althusser the psychoanalyst Jacques Lacan the deconstructionist Jacques Derrida Learn among other things why structuralists say Reality is composed of not Things but Relationships Every object is both a presence and an absence The total system is present in each of its parts The parts are more real than the whole The book concludes by examining the postmodern obsession with language and with the radical claim of the disappearance of the individual obsessions that unite the work of all these theorists

Sartre and Psychoanalysis Betty Cannon,1991 Betty Cannon is the first to explore the implications of Sartrean philosophy for the Freudian psychoanalytic tradition Drawing upon Sartre s work as well as her own experiences as a practicing therapist she shows that Sartre was a fellow traveler who appreciated Freud s psychoanalytic achievements but rebelled against the determinism of his metatheory The mind Sartre argued cannot be reduced to a collection of drives and structures nor is it enslaved to its past as Freud s work suggested Sartre advocated an existentialist psychoanalysis based on human freedom and the self s ability to reshape

its own meaning and value Through the Sartrean approach Cannon offers a resolution to the crisis in psychoanalytic metatheory created by the current emphasis on relational needs By comparing Sartre with Freud and influential post Freudians like Melanie Klein Otto Kernber Margaret Mahler D W Winnicott Heinz Kohut Harry Stack Sullivan and Jacques Lacan she demonstrates why the Sartrean model transcends the limitations of traditional Freudian metatheory In the process she adds a new dimension to our understanding of Sartre and his place in twentieth century philosophy *Horizons, the Poetics and Theory of the Intermedia* Dick Higgins,1984 Written for the lay reader as well as for academic literary theorists this book bridges the gulf between the artistic avant garde in music visual arts and experimental literature and the general public Higgins delves into multiple areas but here is an example of one kind of poem he works with those pieces that move like thisthose pieces i say are snowflakes i saythose pieces that move like thisthose piecesAlong with many other artistsJohn Cage Merce Cunningham Robert Rauschenberg and Jackson Mac Low come to mindDick Higgins has investigated and invented a variety of genres and forms working especially in intermedia the fusion of two or more discrete media His poetics travel some distance from the poetry of the past Here he uses the fusion of the receiver s and the artist s horizons their knowledge feelings experiences and imaginings to provide a vivid account of artistic experimentation over the last thirty years **ADE Bulletin** Association of Departments of English,2002 **On Methods of Music Theory and (ethno-) Musicology** Nico Schüler,2005 Although all research makes use of specific research methods much music scholarship is being published without any reference to or reflection on the premises of the methods employed In other words published articles and books are often lacking a discussion of the scope and limitations of the research methods Furthermore music theory musicology ethnomusicology music psychology etc are not independent disciplines nor is research in those areas an activity to be defined once and for all These areas have strong methodological relationships to each other as well as to areas outside the field of music This book discusses some of the methodological premises on which music research in the areas of music theory ethno musicology and music psychology is based and focuses on selected interdisciplinary approaches It also discusses teaching approaches to music theory **English Association Newsletter** ,2001 [Irony and Crisis](#) Stuart Sim,2002 This book is designed to trace the critical history of the postmodern paradigm
