### Key to Procedure steps:

**Step 2:** Students have to spend a maximum of 20 minutes writing at least 150 words describing the main features of the graph, making comparisons and summarising it in their own words.

**Step 3:** The graph shows three time periods and both males and females in full and part time education. The main features are that the number of women in part and full time education increased, as did the number of men in part time education. The number of men in full time education fluctuated.

**Step 6:** The assessment criteria for task 1 are:

**Task achievement** – in the sample task all the main features of the graph are considered, nothing irrelevant is included and there are 179 words

**Coherence and Cohesion** – The answer has been divided into logical paragraphs and uses cohesive devices e.g. while, overall, as far as women are concerned...

**Lexical resource** – the vocabulary is varied e.g. went up, rose, increased, women, females, gradually, dramatically

**Grammatical range and accuracy** – there is a fairly good range and accurate use of grammatical structures e.g. comparatives – was lower than, adverbs – (increased) dramatically, past continuous – was fluctuating, passives – were involved

### Key to Exercise 1
