Richard W. Kaeuper

Chivalry:

The History of Chivalry; Or, Knighthood and Its Times Charles Mills, 1844 **War and Chivalry** Matthew Strickland, 1996-12-12 This is the first large scale study of conduct in warfare and the nature of chivalry in the Anglo Norman period The extent to which the knighthood consciously sought to limit the extent of fatalities among its members is explored through a study of notions of a brotherhood in arms the actualities of combat and the effectiveness of armour the treatment of prisoners and the workings of ransom Were there laws of war in operation in the eleventh and twelfth centuries and if so were they binding How far did notions of honour affect knights actions in war itself Conduct in war against an opposing suzerain such as the Capetian king is contrasted to behaviour in situations of rebellion and of civil war An overall context is provided by an examination of the behaviour in war of the Scots and the mercenary routiers both accused of perpetrating atrocities

Holy Warriors Richard W. Kaeuper, 2009-08-19 Kaeuper argues that chivalric ideology of the high and later Middle Ages selectively appropriated religious ideas to valorize the institution of knighthood He describes how both elite warriors and clerics contributed to a Christian theology that validated the knights bloody profession

Chivalry and Violence in Medieval Europe Richard W. Kaeuper, 1999 Includes evidence from chivalric literature chivalric mythology knights and hermits the Church and governing power war and violence prowess honor piety status war and tournament conduct of war looting and destruction loyalty nobility largesse formal manners male bonding sexual violence Song of Aspremont Crowning of Louis Raoul de Cambrai The Quest of the Holy Grail The Death of King Arthur Robert the Devil Sir Gowther The Romance of the Wings The Book of the Order of Chivalry L Histoire de Guillaume le Marechal Livre de chevalerie Morte Darthur etc

French Chivalry Sidney Painter, 1940 A richly painted and carefully documented picture of the life customs and opinions of the nobility particularly in France from the eleventh century to the end of the Middle Ages Back cover

The History of Chivalry, Or, Knighthood and Its Times Charles Mills, 1826 **A Companion to Chivalry** Robert W. Jones, Peter R. Coss, 2019 A comprehensive study of every aspect of chivalry and chivalric culture Chivalry lay at the heart of elite society in the Middle Ages but it is a nebulous concept which defies an easy definition More than just a code of ethical behaviour it shaped literary tastes art and manners as well as social hierarchies political events and religious practices its impact is everywhere This work aims to provide an accessible and holistic survey of the subject Its chapters by leading experts in the field cover a wide range of areas the tournament arms and armour the chivalric society's organisation in peace and war its literature and its landscape They also consider the gendered nature of chivalry its propensity for violence and its post medieval decline and reinvention in the early modern and modern periods It will be invaluable to the student and the scholar of chivalry alike
