

FIGURE 2-2 The four major types of information systems

This figure provides examples of TPS, DSS, MIS, and ESS, showing the level of the organization and business function that each supports.

Table 2-1 summarizes the features of the four types of information systems. It should be noted that each of the different systems may have components that are used by organizational levels and groups other than its main constituencies. A secretary may find information on an MIS, or a middle manager may need to extract data from a TPS.
