A market leader in the field, this text emphasizes asset allocation while presenting the practical applications of investment theory without unnecessary mathematical detail. Enhancements to this new Global Edition include New On the Market front boxes that highlight important investment concepts in real world situations across the globe to promote student thinking without taking a full case study approach. Revised worked examples illustrate problems using both real and fictional scenarios from across the world to help students develop their problem solving skills. Regional examples include Hutchinson Whampoa, Asia, The Emirates Group, The Middle East, and KLM Royal Dutch Airlines, The Netherlands. Revised end of chapter material includes brand new global questions and global internet exercises that feature currencies, companies, and scenarios from Europe, Middle East, Africa, and Asia to increase engagement for international students.
