**c't Working with AI** c't-Redaktion, 2024-01-24 The special issue of c't KI Praxis provides tests and practical instructions for working with chatbots It explains why language models make mistakes and how they can be minimised This not only helps when you send questions and orders to one of the chatbots offered online If you do not want to or are not allowed to use the cloud services for data protection reasons for example you can also set up your own voice AI The c't editorial team explains where to find a suitable voice model how to host it locally and which service providers can host it The fact that generative AI is becoming increasingly productive harbours both opportunities and risks Suitable rules for the use of AI in schools training and at work help to exploit opportunities and minimise risks **Art Law** Michael E. Jones, 2023-12-06 Between the countless works of art in the world and numerous laws on their care the task of deciphering correct procedure can seem daunting In Art Law A Concise Guide for Artists Curators and Museum Professionals Michael E Jones breaks down the legal language into a concise tool for all those involved in the art world While most art law books are written for law students or museum directors trustees and curators Jones book appeals to a far larger audience particularly undergraduate and graduate students studying art graphic design photography museum studies art education and art business It is also a useful research guide for museum professionals gallery directors foundation heads working professional visual fine artists and board trustee members Art Law distinguishes itself by providing a broad scope of art law in relation to the world of artists and those organizations that support preserve govern display and even sell art Covering topics such as acquisition grants and buying and selling this book takes a look at the ethical and legal issues and rights that confront the art community

and museums Through case studies complete with images readers can see these topics in action Art Law is a must have guide for art educators museum studies students art law and business programs and artists looking for clear and readable descriptions and answers to the relevant legal issues facing the art world community This book is current through the Warhol Supreme Court decision of May 2023 **Invocational Media** Chris Chesher,2023-10-19 Invocational Media critiques the sociotechnical power of digital technologies by introducing the concept of invocational media What is an invocation Ask your voice assistant and it will define it for you It is a media artefact that responds to many invocations such as seeking the weather forecast requesting any song you can name or turning on the lights almost magically This contemporary manifestation of the ancient practice of invocation gives an immediate response to your call in a way that Chris Chesher argues is the characteristic power of all computers which he redefines as invocational media This book challenges the foundations of computer science by offering invocation as a powerful new way of conceptualising digital technologies Drawing on media philosophy Deleuze Guattari Heidegger Latour Austin Innis and McLuhan it critiques the representationalism of data processing artificial intelligence and virtual reality Invocational media seem to empower individuals but necessarily subject users to corporate and government monopolies of invocation They offer many solutions but only by reducing everything to the same kind of act They complicate agency in their indifference as to whether invokers are human or non human With robotics they invoke material form to act physically and autonomously People willingly make themselves invocable to surveillance and control by creating their own profiles and marking themselves with biometrics This ground breaking book will change how you think about digital media by showing they are in fact invocational media
