Oracle's Primavera Earned Value Management integrates detailed cost information with your program schedule, by aligning and combining project performance data from cost and schedule systems, adding complex burdening rates, and tracking committed cost.

Comprehensive Cost and Earned-Value Management

Primavera Earned Value Management adds extensive earned-value capabilities, helping organizations better manage project costs; measure earned value; and analyze budget, actual, forecast, and performed costs. Without a comprehensive earned-value process, troubled projects can spiral out of control before anyone even recognizes a problem.
