Dissertation Abstracts International, 2000 Index to Theses with Abstracts Accepted for Higher Degrees by the Universities of Great Britain and Ireland and the Council for National Academic Awards, 1993 Proceedings of the IRE., 1950 Qualitative Spatial Change Antony Galton, 2000 This book is a contribution to the emerging discipline of Qualitative Spatial Information Theory. The discipline has arisen from a realization that traditional quantitative techniques for the analysis of spatial phenomena must be supplemented by a wide range of qualitative methods if we are to use information technology effectively to further our capacity for handling spatio-temporal information. Such qualitative methods must be supported by a body of theory concerning the nature and organization of our spatio-temporal concepts. This theory will cover time-space objects in space, their spatial attributes, changes in those attributes, and the temporal structure of those changes. In this book, each topic is given a chapter to itself, and theory of qualitative spaces as partitions of quantitative spaces is developed in detail and applied to numerous particular cases. The theory thus provides a uniform basis for the further development of formal and computational theories of spatial change.
