Great Britain: National Audit Office

Financial Management Maturity Model National:

Ministry of Justice financial management Great Britain: Parliament: House of Commons: Committee of Public Accounts,2012-03-20 The Ministry has improved its financial management since the Committee's last report in January 2011 HC 574 ISBN 9780215556042 Many of the Ministry's processes have improved including modelling and forecasting but the Ministry has not achieved significant improvements in the delivery of key financial outcomes and therefore has much still to do The most serious issue is the Ministry's inability to report its financial affairs on a timely and accurate basis The Ministry's own resource accounts for 2010 11 were delivered late and there were significant problems with the accounts produced by two of its major arm's length bodies the Legal Services Commission and HM Courts Service's Trust Statement The Ministry faces significant accounting challenges for the 2011 12 financial year due to the required earlier publication of the accounts The Ministry needs to break the cycle of continuing failure to produce accurate and timely accounts It also faces considerable challenges in meeting its tough spending review commitments but without a full understanding of its costs the Ministry risks unnecessarily cutting frontline services which are critical to the poorest in the community rather than ensuring savings are achieved through genuine efficiencies Maximising the income it obtains will help the Ministry and fine collection is improving but it is being outpaced by the growth in fines outstanding Excellent financial management is critical to the Ministry's future success as it seeks to achieve significant efficiency gains while coping with workload pressures such as increases in the prison population that are largely outside its control

Financial management report 2011 Great Britain: National Audit Office,2011-11-25 Despite the fact that the Department for Environment Food and Rural Affairs has made improvements in its financial management the NAO cannot yet conclude that the Department is achieving value for money in its financial management activity This is because the spending watchdog expected faster progress in improving performance since it last reported in 2008 and a higher level of financial maturity given the resources spent and the focus on financial management The Department has undertaken a number of projects designed to strengthen its financial management These have had some positive results such as revised management reporting and improved forecasting although the Department has not fully assessed all the benefits of these projects Despite increasing the number of permanent qualified finance staff and also offering financial skills training courses for non financial staff there are still weaknesses in financial capability Financial skills could also be better integrated across the Department The Department should also focus on improving its commercial skills such as contract management It should also develop a strategic model for engagement with its arm's length bodies to understand the risks that they face and opportunities open to them Since 2002 Defra has consistently underspent against its Parliamentary estimate The underspend in 2010 11 was 530 million 10 per cent The Department has however improved its management of expenditure against its departmental expenditure limit reducing its underspend in 2010 11 to 34 million one per cent of expenditure

Progress in improving financial management in Government Great Britain: National Audit

Office,2011-03-03 Despite good progress in improving the professional capability and capacity of government finance departments since the National Audit Office last reported in 2008 good financial management is still not embedded in the civil service culture and financial matters do not have sufficient influence over departments strategic decision making The NAO concludes that departments have achieved a core level of competence in financial management but further improvement in financial management capacity and capability throughout their organisations is required to enable them to meet the challenge of delivering the savings set out in the Spending Review 2010 There has been important progress all departments now have a professionally qualified Finance Director supported by an increased number of qualified finance staff The Treasury is also implementing accounting changes to bring greater transparency to government financial reporting Whitehall s central finance functions competently capture and report the transactions and financial position of the departments Annual accounts are delivered before the July Parliamentary recess The number of overall overspends against the amounts approved by Parliament is low However departments are generally weak at monitoring their balance sheets and at forecasting cash flow in the medium term Departments do not fully understand the costs of their activities and it is rare for them to have good information on the unit costs of outputs levels of productivity or the value of outcomes Departments generally focus on monitoring against the agreed one year budget with a few looking as far ahead as the current spending review period of four years National Audit Office - Department of Energy and Climate Change: The levy Control Framework - HC 815 Great Britain: National Audit Office,2013-11-27 In establishing the Levy Control framework the Government has recognised the importance of monitoring and controlling the considerable cost of energy schemes that consumers fund through their energy bills The NAO concludes that the Levy Control Framework is a valuable tool for supporting control of the costs to consumers that arise from the Government s energy policies and has prompted the Department of Energy and Climate Change to monitor actual and expected costs to consumers from the schemes it covers However the operation of the Framework has not been fully effective in some key areas Spending and outcomes have not been linked in deliberations by the joint Treasury and departmental levy control board and reporting on Framework schemes has not supported effective public and parliamentary scrutiny of the overall costs and outcomes from levy funded spending As consumer funded spending on energy policies increases and new schemes are introduced the Department needs to assure Parliament and the public that it has robust arrangements to monitor control and report on consumer funded spending and the outcomes it is intended to secure The spending cap under the Levy Control Framework is set to rise from 2 billion in 2011 12 to 7 6 billion in 2020 21 in 2011 12 prices By establishing this cap the Department has provided greater certainty for investors The NAO s report highlights that the Framework does not cover the consumer funded Energy Companies Obligation scheme and that it is not yet clear whether it will cover the new Capacity Market including electricity demand reduction measures Treasury minutes on the fifty second to the fifty fifth and on the fifty seventh to the sixty first reports

National Youth Development Agency,2016 **Financial Management in the Home Office** Great Britain. National Audit Office,2009 The Home Office has made substantial improvements in its financial management since 2006 when the Comptroller and Auditor General disclaimed an opinion on its 2004 05 Resource Accounts Further sustained improvement will still be needed over the next few years so that good financial management becomes business as usual across all of the Department s operations which will help the Department maximise the value for money of its service delivery The Department has increased the number of professionally qualified finance staff particularly in senior finance roles and has improved financial governance and leadership Improvements are also evident in the Department s financial planning and decision making budgeting financial monitoring and forecasting and financial reporting The unqualified audit opinion on its 2007 08 Resource Accounts was an important symbol of the progress made There are areas for further improvement The strategic management of the Department s capital programme has not been responsive enough to avoid large underspends which amounted to 725 million over the 5 years to 31 March 2008 The Treasury has capped access to these funds at 292 million and the Department will need to deliver on the plans it has in place to use them by 2010 11 The Department also needs to develop further its understanding of the cost of its activities and the relationship between resource consumption and service outcomes The Department recognises these issues and has been undertaking work with the aim of improving capital programme management and the basis on which decisions are made for funding allocations *Projects, Government, and Public Policy* Stanisław Gasik,2022-11-25 Many governments have effectively organized public project implementation systems in their jurisdictions At the same time many other countries remain at a less advanced level of public project management Globally there is a need for project management knowledge to be transferred between governments However no systematic review of these practices has been developed to date *Projects Government and Public Policy* was written to fulfill this need and presents a review of project management practices in countries with developed project based capabilities This book uses its own rigorous model to present this review systematically This book s practical purpose is to give a structured overview of government level project management practices This knowledge can be used in the work of governments to improve the management of public projects and the implementation of public policies Many professionals working in public institutions understand project management concepts differently than project management professionals Therefore this book begins with a chapter that describes the differences between the conceptual basis of public administration and project management The body of this book has five parts Part I is mainly intended for those involved in government and public administration who

want to acquire or increase knowledge about project management Part II provides an overview of the basic concepts from the theory of public administration public policies and development management Part III describes what makes public projects unique and the success factors specific to projects of this sector Knowledge about effective government project management practices is covered in Part IV The concluding Part V begins with a general overview of the maturity model concept Its main part covers the description of a maturity model showing ways to systematically improve the implementation of public projects This book is written for governments and government administrators including the most influential decision makers who craft policies to guide a country s development as well as how to implement projects This book is also intended for supporters and enthusiasts of project management in government and public administration by providing them with a description of the solutions used by project management in public administration This book is intended too for all project management practitioners working for public projects project managers team members sponsors and middle level executives of project delivering private companies By knowing public administration concepts they can manage their projects better and use a common language with their clients
