

## VNOIK questionnaire

### Instructions:

- Please answer each of the following questions. Include relevant examples whenever possible.
- There is no 'right' or 'wrong' answer to the questions. We are only interested in **your opinion** on a number of issues regarding indigenous knowledge.

1. In your view what is indigenous (or traditional) knowledge?

What makes indigenous knowledge different from other types of knowledge systems (such as Western knowledge)?

2. Practitioners of indigenous science (e.g. elders, herbalists, traditional healers) observe nature to generate knowledge. Do they do experiments and tests in order to verify or validate this knowledge?

- If yes, explain how they test or validate their knowledge.
- If no, explain why not.

3. Practitioners of indigenous knowledge observe nature and give explanations about their observations. Elders in a community can, for example, explain where lightning comes from. Do the elders always use natural causes to explain their observations such as lightning, or do they sometimes include supernatural causes in their explanations?

- If they only use natural causes, explain why and give examples of some of the causes.
- If they sometimes use supernatural causes, explain why and give examples of some of the causes.

4. Indigenous knowledge is transferred from one generation to the next over many decades and centuries. Does this knowledge stay the same or does it change over time?

- If yes, explain why it stays the same.
- If no, explain the causes of such changes.

5. *Hoodia gordonii* is a plant that was used by Khoi-San hunters to suppress their hunger and thirst when they went on hunting expeditions. How **do you think** the Khoi-San people came to know that this particular plant has these properties?

6. Sustainable development is an emerging concept that includes topics such as hunger, poverty and underdevelopment. Globally governments and organisations struggle to find solutions for these important issues. **Do you think** indigenous knowledge can be used to alleviate some of these problems?
