

TIPS FOR BETTER BUDGETING

Budgeting is a key financial move for anyone wanting to improve their financial situation. Without knowledge of where your money is going and a plan to maximize your financial situation, you are likely going to struggle to meet many of your financial goals. Not everyone is successful the first time they begin to budget but using some of the following tips might prove helpful.

HAVE FEWER CATEGORIES

Less categories takes less time to complete which increases likelihood of continuing.

TRACK ONLY DISCRETIONARY EXPENSES

Sometimes the biggest improvements come from tracking what you can control.

ACCOUNT FOR NON-MONTHLY EXPENSES

These expenses often cause budget issues unless accounted for in each month.

BUDGET WEEKLY

Having a shorter budget timeline often helps with making adjustments.

TRACK TRANSACTIONS NOT AMOUNTS

Not all budgets have to be about dollars, sometimes limiting transactions is best.

MAKE CONSTANT CHANGES

Your life changes constantly and your budget will need to change as life happens.

DON'T BE DISCOURAGED

There will be times you will not make your budget but use it as a learning lesson.

SHARE WITH YOUR SIGNIFICANT OTHER

If you have a significant other then you will need their support to be successful.

GO FOR OVERALL BALANCE

Focus more on balancing your overall budget rather than each individual category.

Developing better budgeting habits is one of the best ways to improve your financial situation. You will also have developed a tool that will be very useful in all of your important financial decision-making opportunities.

Budget Guide for Beginners: How to Manage Your Money (Save Money Tips, How to Save Money, Budgeting for Beginners, How to Manage Money, How to Bud
Matthew Roy,2019-02 How To Manage Your Money Money the want for money and money related issues are universal Trying to develop a budget that suits one s individual needs and is workable enough to actually stick to is a very common problem All of us at some point in our lives face money related issues Sometimes it is not enough to fulfill our financial goals At other

times we don't know how to save ourselves from going bankrupt. Having a smoothly working budget is the best answer to all money-related issues. My husband and I just went through a really tough financial patch. With a new baby and all related expenses, we were really living hand to mouth. Rather than adding money to our savings, we were spending our savings quickly. We were very close to having a zero balance in our savings account when we realized that it was time for a lifestyle change, which is really what most budgets require. We had to make several different major steps to get on a budget. We never realized what difference not picking up that party pack of chips from the store aisle could make. No one ever does until they try it. Shifting to a low rent apartment, letting go of our Toyota Camry and resorting to public transport, quitting trips to fast food outlets, leaving the six pack of beer back at the store counter, choosing a cheaper diaper brand, and shopping for our clothes at the wholesale store are some of the many changes that we had to make. We also developed a habit to note each and every expense down to the last penny. I downloaded budgeting software and logged each and every detail of income and expense into it. We started doing things for fun that didn't require money. For date night, we would go for a walk around the park. By the way, we didn't hire a babysitter; my husband's mom took the baby for a few hours. Long story short, within a few months, we were finally able to actually see our savings reading a comfortable figure. We plan to go on until we are completely free of financial anxiety. That is, we want to save enough so that we can have mental and financial freedom to do things that we want and to fulfill our long-term financial goals. Then savings can take care of the bills. While I was planning our budget, I did a lot of research. This book is based on that research and some personal experiences that I gained while going through the process. The first chapter is purely theoretical. Chapter 2 contains several budgeting methods and psychological tactics that can help you stay on the budget. Chapter 3 contains a practical step-by-step plan that you can follow to develop your personalized budget. I can assure you that if you follow the methods and techniques that I have provided in this book, you will be able to save yourself from a financial disaster and you will be able to have a savings account statement that you are proud of.
