*Make Work Fair* Iris Bohnet, Siri Chilazi, 2025-01-28 Two leading gender experts and Harvard researchers reveal a new paradigm for fairness at work and offer professionals at every level in any kind of organization immediate, proven, and evidence-based ways to do their everyday work better and smarter and more fairly. To make organizations more fair, many well-meaning individuals and companies invest their time and resources in diversity, equity, and inclusion (DEI) initiatives. But because inequity is built into the structures, processes, and environments of our workplaces, adding these programs has been ineffective and often becomes a burden passed off to the individuals they are meant to help. In *Make Work Fair*, behavioral scientist and author of *What Works*, Iris Bohnet, and gender expert Siri Chilazi offer data-backed, actionable solutions that build fairness into the very fabric of the workplace. Their methods, tested at many organizations and grounded in data proven to work in the real world, help us make fairer and simply better decisions. Using their three-part framework, employees at all levels can embed fairness into their everyday practices. Believing in equal opportunity is essential, but it isn't enough. Offering an evidence-based blueprint, *Make Work Fair* shows you how to make it a reality, no matter your role, seniority, responsibilities, or where you are in the world.
