Declic Math Seconde:

Maths, seconde R Coste, C Guerlou, Lydia Misset, Eric Lotz, J Turner, 2000 *Les Méthodes de recherche en didactiques* Marie-Jeanne Perrin-Glorian, Yves Reuter, 2006-06-26 Cet ouvrage rassemble une sélection de contributions issues du premier séminaire international consacré aux méthodes de recherche dans le domaine des didactiques organisés par les laboratoires DIDIREM et THEODILE et par l'IUFM du Nord Pas de Calais. Leurs auteurs appartenant à plusieurs pays différents représentent diverses didactiques disciplinaires scientifiques et techniques françaises : histoire mathématiques STAPS. Ces contributions sont regroupées autour de trois axes de questionnement : celui des intérêts et des problèmes liés aux comparaisons et aux croisements des méthodes de recueil et de traitement des données ; celui de la détermination des indicateurs pertinents et des significations qu'on peut leur accorder ; celui des modalités possibles des techniques de retraitement des données tels que scripts chronologiques ou synopsis. L'ensemble de ces textes est présenté par Marie-Jeanne Perrin-Glorian et Yves Reuter, ce dernier proposant dans la contribution inaugurale un programme de recherches possibles pour définir et questionner les méthodes de recherche en didactiques pour justifier aussi les intérêts d'un tel chantier de travail. En effet, en raison des enjeux épistémologiques attachés aux problèmes abordés qu'ils concernent la définition même des didactiques en tant que disciplines de recherche ou la validité des résultats produits, le séminaire mis en place est appelé à se reproduire régulièrement. Cet ouvrage constitue en conséquence le premier d'une série à venir.
