Mastering Curriculum Mapping Module 2 - Activity 3

Deconstructing standards is a valuable first step in the process of curriculum mapping. There are seven integral steps in the process of deconstructing standards:

- Clearly read the standard.
- Identify the required level of learning.
- Determine the type of learning targets needed: Knowledge, Reasoning, Performance and Product.
- Establish the concepts to be taught and skills needed to achieve mastery of the standard.
- Write learning targets that are specific and measurable.
- Clarify and standardize concepts and terms to ensure consistency.
- Develop units of instruction based on a developmentally appropriate progression of the learning targets and complete vertical reviews to ensure there are no gaps or redundancies.

In Modules One and Two video segments, you can see the process being carried out by a group who is working to deconstruct the Common Core State Standards.

Estimated Time to Complete Activity: 60 minutes
