the Chinese manner with significant artistic technical and commercial ramifications for Britain and the Continent Indeed not only artisans but kings noble patrons and entrepreneurs all joined in the quest hoping to gain both prestige and profit from the enterprises they established This beautifully illustrated volume showcases ninety works that span the late sixteenth to the mid nineteenth century and reflect the major currents of European porcelain production Each work is illustrated with glorious new photography accompanied by analysis and interpretation by one of the leading experts in European decorative arts Among the wide range of porcelains selected are rare blue and white wares and figures from Italy superb examples from the Meissen factory in Germany and the Sevres factory in France and ceramics produced by leading British eighteenth century artisans Taken together they reveal why the Metropolitan Museum s holdings in this field are among the finest in the world
