**Figure 1:** The obtained results using our regression forest method, capable of simulating millions of particles in real-time. Our promising results suggest the applicability of machine learning techniques to physics-based simulations in time-critical settings, where running time matters more than the physical exactness.

## Abstract

Traditional fluid simulations require large computational resources even for an average sized scene with the main bottleneck being a very small time step size, required to guarantee the stability of the solution. Despite a large progress in parallel computing and efficient algorithms for pressure computation in the recent years, real-time fluid simulations have been possible only under very restricted conditions. In this paper we propose a novel machine learning based approach, that formulates physics-based fluid simulation as a regression problem, estimating the acceleration of every particle for each frame. We designed a feature vector, directly modelling individual forces and constraints from the Navier-Stokes equations, giving the method strong generalization properties to reliably predict positions and velocities of particles in a large time step setting on yet unseen test videos. We used a regression forest to approximate the behaviour of particles observed in the large training set of simulations obtained using a traditional solver. Our GPU implementation led to a speed-up of one to three orders of magnitude compared to the state-of-the-art position-based fluid solver and runs in real-time for systems with up to 2 million particles.

**CR Categories:** I.3.3 [Computer Graphics]: Computational Geometry and Object Modeling; Physically based modeling; I.2.6 [Artificial Intelligence]: Learning;

**Keywords:** fluid simulation, data-driven, regression forest

## 1 Introduction

Computing high-resolution fluid simulations with traditional state-of-the-art approaches is very challenging, as they require tremendous computational resources to compute a scene with millions of particles. The main bottleneck is the severe restriction on the time step size needed to guarantee stability, and thus simulation times are typically in the range of hours to days on high-end computers, making it impossible to achieve high-resolution fluids in real-time.

The standard Smoothed Particle Hydrodynamics [Lucy 1977] (SPH) method approximates continuous quantities in the Navier-Stokes differential equations using discrete particles with appropriate smoothing kernel and replaces a continuous advection by an advection of particles. The approach does not deal with the incompressibility constraint directly, which causes significant visually unpleasant artifacts.

Recent work has addressed this problem and either enforce a density invariance condition or a divergence-free velocity field. A predictive-corrective scheme has been introduced where pressure values are iteratively updated to satisfy the zero-compression constraint [Solenthaler and Pajarola 2009]. The performance has been further improved by discretizing and iteratively solving the pressure Poisson equation [Iliescu et al. 2013]. Most recently, a position based fluid (PBF) approach has been presented [Macklin and Mueller 2013], where first all particles are advected, and then projected to the manifold of feasible solutions by iteratively correcting positions of particles to satisfy the incompressibility constraint. PBF allows to use a larger time step compared to its counterparts. A density invariance condition has also been combined with a multi-scale scheme [Horvath and Solenthaler 2013] to further speed-up the computation. Despite all these improvements, high-resolution fluids are still computed offline.

An alternative to particle-based approaches are grid-based methods that approximate continuous quantities on a discrete regular grid [Enright et al. 2002]. Incompressibility is enforced on the grid by solving the Poisson's equation, making the velocity field divergence-free. To speed up grid-based simulations, the solution space can be restricted to simpler topology [Chentanez and Müller 2010; Chentanez and Müller 2011]. To avoid discretization artifacts of grid-based methods, the hybrid FLIP model [Zhu and Bridson

## **Data Driven Fluid Simulations Using Regression Forests:**

*Computational and Experimental Simulations in Engineering* Satya N. Atluri, Igor Vušanović, 2020-12-14 This book gathers the latest advances innovations and applications in the field of computational engineering as presented by leading international researchers and engineers at the 26th International Conference on Computational bioengineering geotechnical engineering offshore multi scale structural integrity materials design and computer modeling methods in engineering The contributions which were selected by means of a rigorous international peer review process highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaborations

*Computational Mechanics with Neural Networks* Genki Yagawa, Atsuya Oishi, 2021-02-26 This book shows how neural networks are applied to computational mechanics Part I presents the fundamentals of neural networks and other machine learning method in computational mechanics Part II highlights the applications of neural networks to a variety of problems of computational mechanics The final chapter gives perspectives to the applications of the deep learning to computational mechanics

**Computer Animation and Social Agents** Feng Tian, Xiaosong Yang, Daniel Thalmann, Weiwei Xu, Jian Jun Zhang, Nadia Magnenat Thalmann, Jian Chang, 2020-11-25 This book constitutes the revised selected papers of the 33rd International Conference on Computer Animation and Social Agents CASA 2020 held in Bournemouth UK in October 2020 The 1 full paper and 13 short papers presented were carefully reviewed and selected from a total of 86 submissions The papers are organized in topical sections of modelling animation and simulation virtual reality image processing and computer vision The conference was held virtually due to the COVID 19 pandemic

*Advanced Intelligent Computing Technology and Applications* De-Shuang Huang, Bo Li, Haiming Chen, Chuanlei Zhang, 2025-07-24 The 12 volume set CCIS 2564 2575 together with the 28 volume set LNCS LNAI LNBI 15842 15869 constitutes the refereed proceedings of the 21st International Conference on Intelligent Computing ICIC 2025 held in Ningbo China during July 26 29 2025 The 523 papers presented in these proceedings books were carefully reviewed and selected from 4032 submissions This year the conference concentrated mainly on the theories and methodologies as well as the emerging applications of intelligent computing Its aim was to unify the picture of contemporary intelligent computing techniques as an integral concept that highlights the trends in advanced computational intelligence and bridges theoretical research with applications Therefore the theme for this conference was Advanced Intelligent Computing Technology and Applications

**From Reactive Systems to Cyber-Physical Systems** Ezio Bartocci, Rance Cleaveland, Radu Grosu, Oleg Sokolsky, 2019-09-23 This Festschrift is in honor of Scott A Smolka Professor in the Stony Brook University USA on the occasion of his 65th birthday Scott A Smolka made fundamental research contributions in a number of areas including process algebra model checking probabilistic processes runtime verification and the modeling and analysis of cardiac cells neural circuits and flocking behaviors He is perhaps best known for the algorithm he and Paris Kanellakis invented for checking bi simulation The title of this volume From Reactive Systems to Cyber Physical

Systems reflects Scott's main research focus throughout his career. It contains the papers written by his closest friends and collaborators. The contributions cover a wide spectrum of the topics related to Scott's research scientific interests including model repair for probabilistic systems runtime verification model checking cardiac dynamics simulation and machine learning

**Extended Reality** Weitao Song, Frank Guan, Shuai Li, Guofeng Zhang, 2025-03-29 This LNCS conference set constitutes the proceedings of the First International Conference on Extended Reality ICXR 2024 Xiamen China held during November 14-17 2024

*Monte Carlo and Quasi-Monte Carlo Methods* Art B. Owen, Peter W. Glynn, 2018-07-03 This book presents the refereed proceedings of the Twelfth International Conference on Monte Carlo and Quasi Monte Carlo Methods in Scientific Computing that was held at Stanford University California in August 2016. These biennial conferences are major events for Monte Carlo and quasi Monte Carlo researchers. The proceedings include articles based on invited lectures as well as carefully selected contributed papers on all theoretical aspects and applications of Monte Carlo and quasi Monte Carlo methods. Offering information on the latest developments in these very active areas, this book is an excellent reference resource for theoreticians and practitioners interested in solving high dimensional computational problems arising in particular in finance statistics computer graphics and the solution of PDEs

*Pattern Recognition* Thomas Brox, Andrés Bruhn, Mario Fritz, 2019-02-15 This book constitutes the refereed proceedings of the 40th German Conference on Pattern Recognition GCPR 2018 held in Stuttgart Germany in October 2018. The 48 revised full papers presented were carefully reviewed and selected from 118 submissions. The German Conference on Pattern Recognition is the annual symposium of the German Association for Pattern Recognition DAGM. It is the national venue for recent advances in image processing pattern recognition and computer vision and it follows the long tradition of the DAGM conference series which has been renamed to GCPR in 2013 to reflect its increasing internationalization. In 2018 in Stuttgart the conference series celebrated its 40th anniversary

Advances in Computer Graphics Nadia Magnenat-Thalmann, Jian Zhang, Jinman Kim, George Papagiannakis, Bin Sheng, Daniel Thalmann, Marina Gavrilova, 2023-01-01 This book constitutes the refereed proceedings of the 39th Computer Graphics International Conference on Advances in Computer Graphics CGI 2022 held virtually during September 12-16 2022. The 45 full papers included in this book were carefully reviewed and selected from 139 submissions. They were organized in topical sections as follows: image analysis graphs estimation 3d reconstruction rendering detection colors paintings synthesis ar medical imaging segmentation object detection image attention and modeling simulation

### **Data Driven Fluid Simulations Using Regression Forests Introduction**

Data Driven Fluid Simulations Using Regression Forests Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Data Driven Fluid Simulations Using Regression Forests Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Data Driven Fluid Simulations Using Regression Forests : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Data Driven Fluid Simulations Using Regression Forests : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Data Driven Fluid Simulations Using Regression Forests Offers a diverse range of free eBooks across various genres. Data Driven Fluid Simulations Using Regression Forests Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Data Driven Fluid Simulations Using Regression Forests Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Data Driven Fluid Simulations Using Regression Forests, especially related to Data Driven Fluid Simulations Using Regression Forests, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Data Driven Fluid Simulations Using Regression Forests, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Data Driven Fluid Simulations Using Regression Forests books or magazines might include. Look for these in online stores or libraries. Remember that while Data Driven Fluid Simulations Using Regression Forests, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Data Driven Fluid Simulations Using Regression Forests eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Data Driven Fluid Simulations Using Regression Forests full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Data Driven Fluid Simulations Using Regression Forests eBooks, including some popular titles.

### FAQs About Data Driven Fluid Simulations Using Regression Forests Books

1. Where can I buy Data Driven Fluid Simulations Using Regression Forests books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Data Driven Fluid Simulations Using Regression Forests book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Data Driven Fluid Simulations Using Regression Forests books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Data Driven Fluid Simulations Using Regression Forests audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Data Driven Fluid Simulations Using Regression Forests books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
