

Wave Recognition

A pair of pattern-recognition cards is used orally. The sequence combinations they pass through (vertical and horizontal) are observed. Individual combinations are given. Individual problems are administered individually. Make a similar recognition for horizontal patterns that will produce 100% responses with the pattern. They are identified & verbalized.

The grid contains 10 rows of wave patterns, labeled 1 through 10 on the left. The patterns are arranged in two columns of five rows each, separated by a vertical line. The patterns consist of various wave shapes, some with arrows indicating direction. A small diagram of a car is located on the right side of the grid.
