Personality Development and Psychopathology Norman

Cameron,1968

Personality Development and Psychopathology Norman Cameron,Joseph F. Rychlak,1985 The purpose of this book is to present a picture of the inner life of man as it interacts with the surroundings as it is experienced and as it is expressed in normal behaviour and psychopathology Man s inner life is always a significant source of action and it arouses in

other persons through its behavioural expression some of their most important experiences The dynamic interplay of each person s inner life his behavioural expressions and the experiences he arouses in others are the major forces that constitute society and go to form the culture in which human beings live Comparisons with the circumstances of animal life where the environment is much simpler and the reactions to it far less flexible bring out sharp contrasts as well as some similarities

Throughout this book the importance of infancy and early childhood is strongly emphasized
