Harris Perlman, 1957-03-15 This is a basic book in social casework Its thesis is that among all the complexities within the  
subject matter and operations of casework there are certain constant elements forces and processes which give coherence  
and unity to its practice Mrs Perlman identifies and analyzes these constants and views them within the logical framework of  
problem solving In turn problem solving as a casework process is examined in its likeness to normal human problem solving  
efforts The result is an approach to learning and thinking about casework which is at once organized synthesized and  
imaginative The book s usefulness is enhanced by the author s lucid and pointed style     **Coercion in the Caseworker**

current sociological theory in casework analysis of the interpersonal relationships in casework new thought about the  
appropriate use of authority with people whose own internal controls are weak and unreliable and recent advances in  
understanding and working with people who respond to action more easily than to words These articles by well known  
authorities illustrate the increased range of insight and skill required of modern caseworkers and at the same time are highly  
readable conveying complex ideas in language refreshingly free from jargon     UGC-NET Social Work (PYQ Question bank)
