Impact and implications of AI methods and tools for the future of education Kingsley

Okoye, Samira Hosseini, Kamal Kant Hiran, Julius Nganji, 2024-06-07. The congruence of technology such as AI and its use for education can help transform the different pedagogical practices and future of education. Educational organizations like The UNESCO and The World Bank are already calling for research and development-oriented projects and creation mobilization of technological initiatives on how to re-imagine education and operationalize the use of digital technologies for its purpose: the Digitized Education. Those goals mean or include methodological approaches and wide adoption of the AI methods in fostering education in the classroom or learning environments. Also noteworthy is the fact that digitized education is now an inevitable and integral element to achieving the global sustainable development goals (SDGs), particularly the SDG4 that promotes quality of education.
