Expert Systems For Experts Kamran Parsaye, Mark Chignell, 1988-03-18 This introduction to the design of expert systems is written in an easy-to-read style and offers practical examples for each new topic presented. Emphasis is less on the intricacies of programming language more on explanation. Defines what expert systems are and discusses knowledge representation and inference. Chapters also cover logic, two-valued inference, inexact and semi-exact reasoning, advanced tools and topics and draw on studies of human cognition to motivate technical definitions. Each chapter has an introduction and a summary and provides suggestions for further reading. Contains student projects.

Dynamics of Media Writing Vincent F. Filak, 2025-07-22 Dynamics of Media Writing gives students transferable skills that can be applied across all media platforms from traditional mass media formats like news, public relations and advertising to emerging digital media platforms. Whether issuing a press release or tweeting about a new app, today's media writers need to adapt their message for each specific media format in order to successfully connect with their audience. Throughout this text, author Vincent F. Filak introduces fundamental writing skills that apply to all media while also highlighting which writing tools and techniques are most effective for specific media formats and why. User-friendly and loaded with practical examples and tips from professionals across mass media, this is the perfect guide for any student wanting to launch a professional media writing career. The newly revised Fourth Edition features a new chapter centered around artificial intelligence (AI) in addition to highlighting recent developments in writing for websites and blogs, new interviews with working journalists on recent changes in the industry and updated examples to show successful digital media writing strategies.
