Lathrop,1987-02      **Resources in Education** ,1972      Handbook of Research on E-Government in Emerging Economies: Adoption, E-Participation, and Legal Frameworks Bwalya, Kelvin Joseph,Zulu, Saul F.C.,2012-03-31 This book is a collection of knowledge on contemporary experiences on technological societal and legal setups of e Government implementation in emerging economies Provided by publisher      **Instructors Manual/Testing Program to Accompany Sabias Que? Beginning Spanish** Lee,Van Patten,1999-09      **Sabías que-- ?** Bill VanPatten,2000      **The Political Economy of Imperialism** Ronald M. Chilcote,2012-12-06 This book brings together

important essays by distinguished scholars who have devoted past attention to the study of imperialism and development. It complements an anthology of previously published essays that brings together important theoretical perspectives around the issues and debates on these themes. This volume will be published by Humanity Press forthcoming. Both projects relate to a lengthy chapter, *Theories of Imperialism*, which will be published in my book *Theories of Comparative Political Economy* forthcoming. These projects represent a culmination of many years of teaching in both economics and political science. During that time I taught two political science courses on development and underdevelopment but I was unable to convince my colleagues of the usefulness of a course on imperialism that linked historical issues and debates with the more recent developmental literature. When in 1990 I was welcomed into economics, my colleagues endorsed a graduate seminar on the political economy of imperialism. Thus, this volume evolved out of that experience in an effort to encourage new analysis that reflects retrospectively on past contributions as well as the prospects for imperialism and development in the contemporary world.

*The Desertmakers* Javier Uriarte, 2019-10-29. This book studies how the rhetoric of travel introduces different conceptualizations of space and time in scenarios of war during the last decades of the 19th century in Argentina, Brazil, Paraguay, and Uruguay. By examining accounts of war and travel in the context of the consolidation of state apparatuses in these countries, Uriarte underlines the essential role that war, in connection to empire and capital, has played in the Latin American process of modernization and state formation. In this book, the analysis of British and Latin American travel narratives proves particularly productive in reading the ways in which national spaces are reconfigured, reimagined, and reappropriated by the state apparatus. War turns out to be a central instrument not just for making possible this logic of appropriation but also for bringing temporal notions such as modernization and progress to spaces that were described, albeit problematically, as being outside of history. The book argues that wars waged against deserts, as Patagonia, the sertão of Paraguay, and the Uruguayan countryside, were described and imagined were, in fact, means of generating empty spaces, real voids that were the condition for new foundations. The study of travel writing is an essential tool for understanding the transformations of space brought by war and for analyzing in detail the forms and connotations of movement in connection to violence. Uriarte pays particular attention to the effects that witnessing war had on the traveler's identity and on the relation that is established with the oikos or point of departure of their own voyage. Written at the intersection of literary analysis, critical geography, political science, and history, this book will be of interest to those studying Latin American literature, Travel Writing, and neocolonialism and Empire writing.
