

Mechanical Project Coordinator

Position Responsibilities and Accountabilities:

As a Mechanical Project Coordinator for the Maintenance and Engineering Department, you will be responsible for the implementation of small to medium sized (typically from \$10,000 to \$750,000 and occasionally up to \$5,000,000) multi-discipline projects from budgeting to equipment start-up and project closure.

Your workload will include balancing the priorities of numerous projects at various stages throughout their lifecycle. For individual projects, you will lead multi department project teams (Maintenance, E&I, Process, Reliability, and Operations) to define work scopes that will achieve PRPD business objectives within the approved budgets and schedules.

With a focus on safety, you will provide on-site field supervision to Contractors performing construction activities in both plant shutdown and operating environments. Depending upon workload, project tasks will be a combination of being self-performed or coordinated with engineering consultants.

Project tasks will include:

- Budget Submission support for future Capital Expenditures
- Authorization for expenditure (AFE) preparation to secure project funding
- Preparing Estimates and Request for Quotations
- Planning and Scheduling
- Design and Engineering
- Procurement of goods and services
- Construction Supervision
- Project Cost Tracking/Reporting
- Equipment Commissioning
- Documentation Turnover
- Project Closures

The ability to economically solve problems, with long term reliable solutions, will bring success to both you and PRPD. This is a great opportunity with exposure to projects with diverse objectives and a mix of office and field experience.

The ability to economically solve problems, with long term reliable solutions, will bring success to both you and PRPD. This is a great opportunity with exposure to projects with diverse objectives and a mix of office and field experience.
