Forensic Investigations, Grades 6 - 8 Schyrlet Cameron, Janie Doss, Suzanne Myers, 2008-09-03 Connect students in grades 4-8 with science using *Forensic Investigations Using Science to Solve Crimes*. In this 80-page book, students build deductive reasoning skills as they become crime-solving stars. Most scenarios in the book have more than one plausible outcome, allowing individuals or groups to broadly interpret evidence. Activities include interpreting handwriting and body language and fingerprinting. The book supports National Science Education Standards. *Radical Solutions and eLearning* Daniel Burgos, 2020-05-22 Educational Technology is the right couple to a radical innovation. Thanks to the appropriate technology in the right context with the best fit to the target audience, education can be drastically improved, meaning a better performance-competence-achievement match with the user's expectations and with the market needs. Serious games, Virtual reality, Augmented reality, Remote labs, Online learning, Blockchain, Mobile learning, and many other key technologies allow for a better explanation of so many subjects and even more for a complete student involvement and a full teacher engagement into the educational system. Technology gives another angle to the same content, provides the user with a personalised experience, and pushes the limits of knowledge a little further every time. This book presents a number of radical innovations through technology from experienced cases studies to be replicated and inspired by a powerful resource handbook for cutting edge education.
