## **Algebra Trigonometry Graphs Models:**

*Algebra and Trigonometry* Judith A. Beecher, Judith A. Penna, Marvin L. Bittinger, 2001-12 The BPB team has created a book where the use of the graphing calculator is optional but visualizing the mathematics is not. By creating algebraic visual side by side the authors show students the relationship of the algebraic solution with the visual often graphical solution. In addition to helping students visualize the math with the side by side the authors focus on helping students make the connection between x intercepts zeros and solutions both visually and algebraically.
