Doing Objects in Visual Basic 6 Deborah Kurata,1999 Artful Making offers the first proven research based framework for engineering ingenuity and innovation This book is the result of a multi year collaboration between Harvard Business School professor Robert Austin and leading theatre director and playwright Lee Devin Together they demonstrate striking structural similarities between theatre artistry and production and today s business projects and show how collaborative artists have mastered the art of delivering innovation on cue on immovable deadlines and budgets These methods are neither mysterious nor flaky they are rigorous precise and with this book s help absolutely learnable and reproducible They rely on cheap and rapid iteration rather than on intensive up front planning and with the help of today s enabling technologies they can be applied in virtually any environment with knowledge based outputs Moreover they provide an overarching framework for leveraging the full benefits of today s leading techniques for promoting flexibility and innovation from agile development to real options

Systems Analysis and Design Gary B. Shelly,Thomas J. Cashman,Harry J. Rosenblatt,2001 This title allows students to do systems analysis and design right from the start Examples and cases are drawn from actual systems projects that enable students to learn in the context of solving problems much like the ones they will encounter on the job A blend of traditional development and current techniques such as client server and object oriented development graphical user interfaces and electronic data interchange are provided The clear writing style makes systems analysis and design easy to understand
