Kelly, 2020-10-30 Research on evaluation shows that low use and non use of evaluation is common yet evaluation is hailed as beneficial and worthwhile The worth of evaluation is tied to its utilisation presenting a paradox if evaluation is

both revered and underutilised This book investigates this paradox in the under researched context of small development non profit organisations which have specific resource constraints and bottom up community development values that complicate their ability to do and use evaluation in line with top down directives The book examines the utility meaningfulness and purpose of evaluation from small non profit perspectives and explores whether evaluation has value for these organisations For development practice it presents evaluative alternatives that reconceptualise evaluation as part of the active process of development rather than as an interval based add on For evaluation theory it highlights a historical preoccupation with improving evaluation without assessing its inherent worth and considers alternative ways to enhance the value of evaluation for small non profits
