Decolonizing Philosophies of Education Ali A. Abdi,2012-01-01 Philosophy of education basically deals with learning issues that attempt to explain or answer what we describe as the major questions of its domains i e what education is needed why such education and how would societies undertake and achieve such learning possibilities In different temporal and spatial intersections of people s lives the design as well as the outcome of such learning program were almost entirely indigenously produced but later they became perforce responsive to externally imposed demands where as far as the history and the actualities of colonized populations were concerned a cluster of de philosophizing and de epistemologizing educational systems were imposed upon them Such realities of colonial education were not conducive to inclusive social well being hence the need to ascertain and analyze new possibilities of decolonizing philosophies of education which this edited volume selectively aims to achieve The book should serve as a necessary entry point for a possible re routing of contemporary learning systems that are mostly of de culturing and de historicizing genre With that in mind the recommendations contained in the 12 chapters should herald the potential of decolonizing philosophies of education as liberating learning and livelihood praxes This collection of critical and scholarly analyses provides an insightful and timely resource for decolonizing philosophies of education that continue to shape discourses policies curricula and practices in all levels of educational and social institutions It also usefully challenges versions of postcolonial studies that fail to recognize and demystify the continuity of colonial hegemony in contemporary societal formations in both the global north and south Toh Swee Hin Distinguished Professor University for Peace Costa Rica Laureate UNESCO Prize for Peace Education 2000 Decolonizing philosophies of education edited by Ali A Abdi is a collection of twelve essays by noted scholars in the field who provide strong readings of postcolonialism in education with an emphasis on decolonizing epistemologies It provides a clear and comprehensive introduction to the critical history of colonization postcolonial studies and the significance of education to the colonial project This is an important book that provides a global perspective on the existential and epistemological escape from the colonial condition Michael A Peters Professor Educational Policy Studies University of Illinois at Urbana Champaign

Learning to Teach Physical Education in the Secondary School Susan Capel,Margaret Whitehead,2002-01-31 There are many teaching skills and issues covered in initial teacher education which student PE teachers must apply to their own subject However the complexity of teaching PE can make this difficult to do This book focuses therefore on the requirements of student PE teachers in relation to teaching skills and issues covered in initial teacher education courses Throughout the book the theory underpinning those skills and issues is interlinked with tasks which can be undertaken alone with another student or with a tutor The book is designed to help student PE teachers to develop teaching skills knowledge and understanding of the wider context of PE along with the ability to reflect critically and to develop professional judgement
