for Beginners: How to Manage Your Money (Save Money Tips, How to Save Money, Budgeting for Beginners, How

related issues are universal Trying to develop a budget that suits one s individual needs and is workable enough to actually
stick to is a very common problem All of us at some point in our lives face money related issues Sometimes it is not enough to
fulfill our financial goals At other times we don t know how to save ourselves from going bankrupt Having a smoothly
working budget is the best answer to all money related issues My husband and I just went through a really tough financial
patch With a new baby and all related expenses we were really living hand to mouth Rather than adding money to our
savings we were spending our savings quickly We were very close to having a zero balance in our savings account when we
realized that it was time for a lifestyle change which is really what most budgets require We had to make several different
major steps to get on a budget We never realized what difference not picking up that party pack of chips from the store aisle
could make No one ever does until they try it Shifting to a low rent apartment letting go of our Toyota Camry and resorting to
public transport quitting trips to fast food outlets leaving the six pack of beer back at the store counter choosing a cheaper
diaper brand and shopping for our clothes at the wholesale store are some of the many changes that we had to make We also
developed a habit to note each and every expense down to the last penny I downloaded budgeting software and logged each
and every detail of income and expense into it We started doing things for fun that didn t require money For date night we
would go for a walk around the park By the way we didn t hire a babysitter my husband s mom took the baby for a few hours
Long story short within a few months we were finally able to actually see our savings reading a comfortable figure We plan to
go on until we are completely free of financial anxiety That is we want to save enough so that we can have mental and
financial freedom to do things that we want and to fulfill our long term financial goals Then savings can take care of the bills
While I was planning our budget I did a lot of research This book is based on that research and some personal experiences
that I gained while going through the process The first chapter is purely theoretical Chapter 2 contains several budgeting
methods and psychological tactics that can help you stay on the budget Chapter 3 contains a practical step wise plan that you
can follow to develop your personalized budget I can assure you that if you follow the methods and techniques that I have
provided in this book you will be able to save yourself from a financial disaster and you will be able to have a savings account
