**NOTE:** the above English keyboard keys for the Hebrew letters are for the standard Hebrew keyboard. There are Hebrew fonts that use keys that are not standard.

The vav letters cause the most confusion. They are the least letters in a word. Use them with purpose. The negative letters and final letters are fully supported. Another note: in the code, a mem vav would appear in the middle of a word and the negative letter may occur at the end of a word. Subsections of numbers on the next page!
