**Learning to Love the Bomb** Sean M. Maloney, 2007-08 Offers controversial data and conclusions about Canada's management of nuclear weapons and of its image on the world stage Based on newly declassified Canadian and U S documents from the 1950s and 1960s *Canada's Prime Ministers and the Shaping of a National Identity* Raymond B. Blake, 2024-06-15 Since Confederation Canadian prime ministers have consciously constructed the national story Each created shared narratives formulating and reformulating a series of unifying national ideas that served to keep this geographically large ethnically diverse and regionalized nation together This book is about those narratives and stories Focusing on the post Second World War period Raymond B Blake shows how regardless of political stripe prime ministers worked to build national unity forged a citizenship based on inclusion and defined a place for Canada in the world They created for citizens an ideal image of what the nation stood for and the path it should follow They told a national story of Canada as a modern progressive liberal state with a strong commitment to inclusion a deep respect for diversity and difference and a fundamental belief in universal rights and freedoms Ultimately this innovative history provides readers with a new way to see and understand what Canada is and what holds us together as a nation **Friends and Enemies** J.L. Granatstein, 2024-03-01 Friends and Enemies presents a collection of essays on Canadian foreign policy written by J L Granatstein one of the leading political and military historians in the country The essays cover a period primarily from the Second World War through to the early 2000s and examine policy under prime ministers Mackenzie King Louis St Laurent John Diefenbaker Lester Pearson and Pierre Trudeau Based on interviews and extensive archival research the essays reveal how Granatstein's views shifted as he reacted to altered conditions in Canada Canadian alliances and the world situation

**Canada's Rural Majority** R.W. Sandwell, **Canada's Voice** Adam Chapnick, 2010-01-01 It is hard to imagine a person who embodied the ideals of postwar Canadian foreign policy more than diplomat and scholar John Wendell Holmes Holmes joined the foreign service in 1943 headed the Canadian Institute of International Affairs from 1960 to 1973 and as a professor of international relations mentored a generation of students and scholars Canada's Voice draws upon family letters archival records and more than 150 personal interviews to chronicle how Holmes influenced the way diplomats scholars and statespeople abroad viewed Canada and its citizens and how Canadians saw themselves on the world stage Accessible and engrossing this is the only comprehensive biography of a man who helped shape foreign policy during Canada's golden age as a middle power **Canada and the Age of Conflict** Charles Perry Stacey, 1977 *HMS Terror* Matthew Betts, 2020-10-30 In the summer of 1845 Sir John Franklin and a crew of 134 men entered Lancaster Sound on board HMS Erebus and HMS Terror in search of a Northwest Passage The sturdy former bomb ships were substantially strengthened and fitted with the latest technologies for polar service and at the time were the most advanced sailing vessels developed for Polar exploration Both ships but especially HMS Terror had already proven their capabilities in the Arctic and Antarctic With

such sophisticated rugged and successful vessels victory over the Northwest Passage seemed inevitable yet the entire crew vanished and the ships were never seen again by Europeans Finally in 2014 the wreck of HMS Erebus was discovered by Parks Canada Two years later the wreck of HMS Terror was found sitting upright in near pristine condition The extraordinarily well preserved state and location of the ships so far south of their last reported position raises questions about the role they played in the tragedy Did the extraordinary capabilities of the ships in fact contribute to the disaster Never before has the Franklin Mystery been comprehensively examined through the lens of its sailing technology This book documents the history design modification and fitting of HMS Terror one of the world s most successful polar exploration vessels Part historical narrative and part technical design manual this book provides for the first time a complete account of Terror s unique career as well as an assessment of her sailing abilities in polar conditions a record of her design specifications and a full set of accurate plans of her final 1845 configuration Based on meticulous historical research the book details the ship s every bolt and belying pin and ends with the discovery and identification of the wreck in 2016 explaining how the successes and ice worthiness of Terror may have contributed to the Franklin disaster itself It is an ideal reference for those interested in the Franklin Mystery in polar exploration the Royal Navy and in ship design and modelling
