

# SAP MM Configuration Tips and Tricks

## Maintain Plant

Plant 0001 is the SAP default.

**OX14** - Define Valuation Area (Tick one only- Once your system go live, no more changes)  
Most company take the SAP recommended choice - Value Material Stock at Plant level  
Value Material Stock at Plant or Company Level

- o If you value material stocks at plant level, the plant is the valuation area.
- o If you value material stocks at company code level, the company code is the valuation area.
- o The decision you make applies to the whole client.

**OX10** - Create / Change / View Plants

**OVXB** - Create / Change / View Division

**OX18** - Assign Plant to company code  
e.g. 0001 - 0001 - All Plants  
Px1 - Plant Px1  
Px2 - Plant Px2

**OX19** - Assignment of company code to the Controlling Area

**OB38** - Assign company code to Credit Control Area

**OML7** - Assign business area to Plant/Valuation area and division  
e.g. Plant Px1 - Business Area Bx1  
Bx2  
Assign Valuation area to the Business Area  
e.g. Valuation area Vx1 - Business Area Bx1  
Business Area Bx2

**OM10** - Assign Factory Calendar to the Plant and Business Area

The plant plays an important role in the following areas:

- Material Valuation - If the valuation level is the plant, the material stocks are valued at plant level. Each plant can have its own material prices and account determination.
- Inventory Management - The material stocks are managed within a plant.
- MRP - Material requirements are planned for each plant. Each plant has its own MRP data. Analyses for materials planning can be made across plants.
- Production - Each plant having they own production/planning.
- Costing - In costing, valuation prices are defined only within a plant.
- Plant Maintenance - If a plant performs plant maintenance planning tasks, it is defined as a maintenance planning plant. A maintenance planning plant can also carry out planning tasks for other plants (maintenance plants).

If you want to use the application PP (production planning) or product costing and job-order costing, you must set valuation at plant level.
