

8th Grade Science Unit
Heredity: Traits, Genes, Alleles
 Unit Supplement

Topic: Species and Reproduction

Grade Level: 8

Duration:
12 days

Summary

Students will be learning about heredity and how traits are passed from parents to offspring. Students will discover the Law of Segregation, and the Law of Independent Assortment.

CLEAR LEARNING TARGETS

“Can” statements

- _____ explain how traits are passed from one generation to the next
- _____ identify the difference between dominant and recessive traits
- _____ demonstrate the Mendelian Law of Segregation
- _____ demonstrate the Mendelian Law of Independent Assortment
- _____ analyze Family Histories to identify inherited Genetic Disorders

Activity Highlights and Suggested Timelines

Day 1	Introduction Students will make observations and collect data about various traits found in their immediate family or Class Survey. This will lead into the discussion of dominant and recessive traits.
Day 2-3	Discovery Students will explore how traits are passed down from parents to offspring through the Mendel Pea Plant Experiment (Mendel's Law of Segregation and Law of Independent Assortment) (pg 60-61, 62)
Days 4-9	Discovery Students will use what they know about the inheritance of simple genetic traits. They will also define probability and then use Punnett Squares to predict the results of genetic crosses. Finally, students will be able to explain the meaning of genotype and phenotype through an Online Video - Inheritance (Genetics, or Punnett square activity). Online - Mendel's Genetics (pg 60-61, 62, 63, 64) and Mendel's Genetics (pg 60-61, 62, 63, 64)
Day 10	Discovery Students will analyze arguments that found an ethical issue for making genetic tests about the possible outcomes of offspring. Students will be able to analyze a pedigree to determine who in offspring's line inherit a genetic disorder.
Day 11 (end of spring)	Reflection Heredity and summative assessments are used to focus on what students should know about the possible outcomes of offspring. Students will be able to analyze a pedigree to determine who in offspring's line inherit a genetic disorder throughout the unit and to use some cases of student misconceptions related to Segregation Genetics. A reflection related to what is to be implemented can be administered at the end of the unit to assess whether learning targets.
Day 12	Reflection/Assessment Review of the results of the unit's summative assessments to assess student understanding of the unit.
