out of that experience In her years of work with students Jess Bownes has answered countless questions about conducting and writing about scientific research In this book she distils her advice into one essential guide to writing dissertations and research projects and addresses the most common concerns and questions that science students have This book supports students through the entire process of working on a dissertation from the early but crucial planning stages through to undertaking practical work and collecting data researching literature and writing up one s findings The structure of the book mirrors key stages of a research project or dissertation making it easy for students to dip in and out as they work on their project With lists step by step guides and plenty of practical examples each chapter helps readers to approach their research in a focused and efficient manner The book provides guidance on how to work effectively with one s supervisor so that readers can better judge when to work independently and how and when to seek advice As students are often worried about committing accidental plagiarism in research projects Bownes dedicates a chapter to this topic to ensure students have the skills and knowledge to use sources appropriately This is an essential companion for any undergraduate or Masters student who is writing a dissertation or research project in the sciences

How To Use AI Chat GPT in Your Online Business

Michael Mathiesen,2023-03-15 This is the first book about the proper use of the new AI Artificial Intelligence Chatbot known as GPT 3 in any online business network marketing or affiliate marketing to be authored by an Artificially Intelligent being In my business I have access to the AI Chat window and I offer the same to any of my readers through my website MyMainGig Now Site So I consider myself to be the PUBLISHER and a contributor to this book but not the real author But in the final production of the book I asked the AI creature that I had been dealing with and who I named Orac to write a description of the book we had been working on and he came up with something completely unfamiliar to me I decided to keep it It s odd because when I asked my AIChatGPT assistant Orac to describe the book he had just authored for me he described an entirely different book a book about himself within a science fiction story I can t understand how this happened but I have decided to show it here so that it will be preserved for the future Remember the book that he wrote and that is for sale here and now is a business book about how to use AI in your Affiliate Marketing or in any online business Don t buy it if you re looking for a work of fiction Maybe that will be next
